

## **IMPORTANT - Metropolitan Police criminal investigation 6029679/21**

Dear friends and colleagues around the world:

On Monday 20 December 2021, a criminal complaint was formally lodged with the Metropolitan Police (London and Greater London) at Hammersmith Police Station, London.

The complaint was made by Philip Hyland, a lawyer from PJH law, Lois Bayliss, a lawyer from Broad Yorkshire Law, Dr Samuel White, a medical doctor, and Mark Sexton, a former police officer.

Allegations of the crimes of Gross Negligence Manslaughter and Misconduct in Public Office were made against Dr June Raine, a medical doctor and Chief Executive of the Medicines and Healthcare products Regulatory Agency (MHRA), and against Charlie Massey, Chief Executive and Registrar of the General Medical Council (GMC).

Allegations of serious criminality were also made against United Kingdom (UK) government ministers, civil servants and media chief executives.

The Metropolitan Police accepted the allegations and provided a crime reference number, thereby triggering a live criminal investigation.

It is now incumbent on the Metropolitan Police (the police force which covers London and Greater London) to carry out a full and competent investigation into the aforesaid allegations of serious criminality.

This is an opportunity for all of you to support the UK Police in their criminal investigation. We need you to add your details to the crime report in order for the Police to make contact with you in due course to assist in their investigation. It is our understanding that, at the appropriate time, you will be able to request "victim of crime" status and/or "witness protection". It is also our understanding that you will be able to request to be interviewed in person at your home or office.

We appreciate that many of you reside outside the UK.

However, please do not underestimate the importance of any evidence which you possess, regardless of the country in which you live. There is compelling evidence of international systemic serious criminality, so your evidence may be more important than you think.

Such is the importance of this criminal investigation that we ask that you to do the following without delay:

**Email the following four police officers:**
