To the Registrar of the CPSO
Open Letter

Dear Registrar,

I ask politely for **3 minutes** of your time.

Please watch with an open mind this video **3 times**.

Then make your decision whether I am both ethical and competent in defending the medical safety of Canadians.

VIDEO:

THE CDC, FDA AND DARPA KNEW THAT **IVERMECTIN WAS THE ANSWER:**

<https://rumble.com/v218blg-dr.-chris-shoemaker-they-knew-ivermectin-was-the-answer-to-a-coronavirus-ou.html>

AND FINALLY One More Minute:

Drs Kory, Cole, Thorp and McCullough - Competent Clinicians All

<https://t.me/HarveyRisch/190>

Please simply listen, actually listen to the 5 of us. We happen to be correct.

I am proud of my work and of my speeches. I have spoken out to save the lives of untold numbers of world citizens and Canadians.

You have the opportunity to join with my voice, in full recognition that the information of science on these topics is now fully on the side that **Vaccines** to a respiratory pathogen attached to a coronavirus vector **could never work and HAS NOT WORKED.**

To say otherwise is to bury your head from the truth that **Unvaccinated Canadians** retain their 94% immunity to Coronavirus that they have had before and throughout the pandemic.

But that in contrast **Vaccinated Canadians** have seen their immunity erode month by month by month since September 2021, to the point that it wallows at 30% - ie **300% negative efficacy** (HARM effect) compared to the choice of NOT harming **human T cells** and their natural protection of us all.

(PLEASE SEE Drs. Bhakdi and Palmer's second paper below.)

1. Drs. Bhakdi and Palmer - Published August 19, 2022.

<https://doctors4covidethics.org/vascular-and-organ-damage-induced-by-mrna-vaccines-irrefutable-proof-of-causality/>

Summary

Vascular and organ damage induced by mRNA vaccines: irrefutable proof of causality.

This article summarizes evidence from experimental studies and from autopsies of patients deceased after vaccination. The collective findings demonstrate that:

- mRNA vaccines don't stay at the injection site but instead **travel throughout the body and accumulate in various organs,**
- mRNA-based COVID vaccines induce **long-lasting expression of the SARS-CoV-2 spike protein in many organs,**
- vaccine-induced expression of the spike protein induces **autoimmune-like inflammation,**
- vaccine-induced inflammation can **cause grave organ damage, especially in vessels, sometimes with deadly outcome.**

We note that the damage mechanism which emerges from the autopsy studies is not limited to COVID-19 vaccines only, but is completely general—it **must be expected to occur similarly with mRNA vaccines against any and all infectious pathogens. This technology has failed and must be abandoned.**

The evidence presented here clearly demonstrates a chain of causation from vaccine injection to:

- rapid distribution of the vaccine through the bloodstream,
- widespread spike protein expression, prominently in blood vessels, and
- autoimmune-like inflammation and organ damage.

Vaccine-induced **vascular damage** will promote blood clotting. **Clotting-related diseases such as heart attack, stroke and lung embolism are very common in the adverse events databases [4,12].**

In addition to autoimmune-like inflammation, other disease mechanisms, including **prion-mediated CNS degeneration [13], aberrant vascular protein deposition (amyloidosis) [14,15], and lipid nanoparticle toxicity [16]**, require further study and corroboration.

Overall, these vaccines can no longer be considered experimental—the “experiment” has resulted in the disaster that many medical doctors and scientists predicted from the outset [17]. **The vaccination must be stopped, and all approvals and authorizations of their use must be revoked.**

Drs. S. Bhakdi and M. Palmer

ALSO

2. From Drs. Bhakdi, Reiss and Palmer. October 10, 2022.

https://doctors4covidethics.org/gene-based-vaccination-quo-vadis/?utm_source=substack&utm_medium=email

SUMMARY

PROVIDES EXTENSIVE PROOF THAT DAMAGE affecting cytotoxic-T Lymphocytes (CTL's) BY C-19 Vaccine mRNA-Spike insertion **in the Trillions** is damaging to human health in the extreme.

Sucharit Bhakdi MD, Karina Reiss PhD, and Michael Palmer MD, October 10, 2022.

Additionally, this sophisticated scientific discovery by Dr. Jessica Rose (Dec 28, 2022) points to the REASON that this C-19 NON-VACCINE is **failing** in its supposed purpose.

She describes the immunological mechanism of action for **lost immunity** - a shift to tolerance and **Autoimmune HARM** from the shots.)

https://jessica.substack.com/p/igg4-related-disease-igg4rd-means?utm_source=substack&utm_medium=email

SUMMARY (Dr. J. Rose)

Repeated injections with modified mRNA encapsulated by LNPs **ALWAYS DAMAGES** our immune system in a specific way.

It harms the human genome, **it shifts the IgG response pattern towards IgG4** dysfunction, it harms T-cell Immunity, and it promotes **fibroinflammatory disease** states in multiple organs.

And finally:

Dr. PAUL ALEXANDER
MSc. University of Toronto
PhD McMaster University.

..... "This COVID gene injection has shown itself to be non-sterilizing non-neutralizing, and thus unable to stop infection, replication, or transmission. Thus if it cannot sterilize the virus, it cannot stop transmission and as such, you (China) will never get to herd immunity. It has failed. ZERO-COVID failed completely and also **we fear what will happen if they move to mass vaccinate. Mass vaccination in the midst of an ongoing pandemic with massive elevated infectious pressure will doom the response and cause massive variants to emerge. We never ever mass vaccinate across age groups while there is circulating pathogen. In the midst of a highly mutable infectious pathogen, this will be a disaster for the world. Not only China.**"

https://palexander.substack.com/p/china-and-xi-xi-urges-steps-to-protect?utm_source=substack&utm_medium=email

"The use of early treatment is critical (multi-drug sequenced overlapping anti-virals, corticosteroids, and anti-platelet anti-clotting drugs) as needed, and it is recommended as soon as there are symptoms."

His fully expert opinion should have been followed early but should still be followed NOW.

HIS OPINION RE THE CURRENT 'CHINA SYNDROME' IS FOR ALL COUNTRIES INCLUDING OUR OWN.

IT IS ALSO MY OPINION.

YOURS IS THE CLINICIAN BODY, WHOSE JOB IT IS TO 'PROTECT THE PUBLIC' - ESPECIALLY WHEN NON-CLINICIAN BUREAUCRATIC BODIES GET IT WRONG.

YOU CAN TELL THE AGENCIES ABOVE YOU, HEALTH CANADA, NACI AND PHAC TO LISTEN TO **YOU**.

PLEASE READ THESE STUDIES AND PLEASE ACT.

YOUR ONTARIO CITIZENRY ARE DEPENDING ON YOUR ETHICAL, COHERENT CHOICE IN THEIR MEDICAL DEFENCE.

CPSO, my College,

You know from Dr. ROSE and Dr. ALEXANDER in their Immunologic Expertise what to do.

Please do what our Province and World needs now.

Urgently and sincerely,

Chris Alan Shoemaker, M.D. CCFP
Member, College of Physicians and Surgeons of Ontario
